FRONTEND DEVELOPER INTERN

ABOUT ME

I am a senior student at the Vietnam National University of Information Technology. I am eager to apply for this frontend intern position. With strong experience in working with ReactJS - NextJS frameworks at frontend position and ASP.NET C# with SQL Server at backend position. Moreover, I am willing to learn new knowledges to satisfy the demands of company. I hope to be part of your team.

PROJECTS

NFT Charity - Teamwork (BE & FE)

- At Backend position, I use ASP.NET Web API & SQL Server to create a web API and save transactions. FE at fetching API & get data from solidity BE, building user interface in admin site using ReactJS and Material UI.
